Re: Putting Balance and Wellness Back Into Your Life

Dear Dr. Sokoloff:

I am just taking the opportunity to let you know how pleased we were with your presentation of Putting Balance and Wellness Back into Your Life here at our Baltimore, Maryland (HQ) location. You certainly had everyone's attention and we rated this presentation as a 100% rating. It simply does not get any better than that. Employee comments included how you are knowledgeable, informative, articulate, motivational, and humorous. They said they would definitely recommend this training to others.

On a personal level, I want you to know that I appreciate all of your efforts to accommodate our specific needs as a participating speaker in our wellness initiative program. Please feel free to share this letter as you deem appropriate.

Sincerely yours,

Wanda Wiley, MSW
Risk Management Compensation Coordinator
